Title: Lithuanian University Students on Using AI Tools for Learning English

Author(s): Aurelija Daukšaitė-Kolpakovienė, Vytautas Magnus University, Lithuania

Abstract:
This case study aimed to investigate Lithuanian university students' perceptions and experiences of the use of AI-based technologies while learning English. It examined the advantages and disadvantages the students could identify and reflect on (whether AI empowered their learning in any way or not). An online questionnaire with open-ended and closed-ended questions was administered to twenty-eight Lithuanian students at a liberal arts university in Lithuania to gather data. The data was processed using quantitative and qualitative methods. The findings reveal that the study participants used AI tools for a limited number of purposes and functionalities and were rather sceptical about them with regards to improvement of various English skills and competences when using them. Just over a half of all the study participants felt motivated to use AI tools for English learning to achieve the following practical aims: to save time, get ideas, and improve their vocabulary. However, the disadvantages were related to the point of view that AI might not be something to learn or receive information from because of its numerous flaws.

Welcome to the TSSL 2025 Poster Presentation platform!

The platform allows for a hybrid poster session experience during the time of the conference. You will be able to access each poster individually, listen to a short presentation from the authors, and interact with authors and attendees using a conversation format. Finally, don't forget to vote for the **Best Poster Award**.

To get started:

1. Select one of the **TSSL2025 Poster Presentations** from the left-hand menu
2. **Review** the poster and **brief presentation** from the author(s)
3. **Start or contribute to a conversation** with the author(s) by selecting "Add discussion topic" or using the "Reply" option in an existing discussion.
4. Before leaving, don't forget to vote for the **BEST Poster Presentation**: <https://bit.ly/BestPosterTSL25>

Enjoy the conference!
